Photoelectric Energy Universal TV Remote Control EM-3699E

This TV remote control will convert light into electric energy. Please turn ON the power switch before using it. If the remote control is not used for a long time, please switch to OFF.

How to set up

1. Switch on the TV and point this remote control at it. Press and hold the 'SET' button, release it until the indicator light goes on.
2. Press 'OK' button, and the indicator light starts flickering.
* Press 'CH+' or 'CH-' button to switch to manual search; Press 'OK' button to switch back to automatic search.
3. As soon as the TV responds, press 'OK' button at once, and the indicator light goes off.
4. Check whether other buttons work properly. If yes, setup done. If not, please repeat Step 1 to 4.
